NEW! ProtoClear™ Detoxification Formula

ProtoClear™ is a unique formula that provides optimal protein levels to promote the repair and regeneration of compromised tissues throughout the body*. The natural-form amino acids in ProtoClear™ include L-Glutathione, L-Lysine, N-Acetyl Cysteine (NAC), Glycine, and Taurine. Each one has been shown to support detoxification and the elimination of harmful toxins from the body*. Coenzyme Q10 (CoQ10) and Green Tea extract have also been included in ProtoClear™. Both possess powerful antioxidant properties, offering further protection for the liver during detoxification*. MSM, a rich source of organic sulfur, has been included to support detoxification and joint structures*. ProtoClear™ contains a balanced formulation of vitamins, minerals, and micronutrients in amounts that support detoxification and healthy cell regeneration*. The vitamins and minerals in ProtoClear™ are presented in easily absorbable forms to ensure proper utilization.

Fat consumption has been incredibly stigmatized in Western culture; however, healthy dietary fats are a vital part of a balanced diet. ProtoClear™ contains a naturally-stabilized, Certified Organic Golden Flax Meal that is screened for microbiological contamination. It is an excellent source of fiber and Omega-3 essential fatty acids (EFA). A deficiency in EFA can lead to poor fat utilization, poor cell membrane integrity, and compromised energy production. Medium Chain Triglycerides (MCTs) also provide a key source of energy that is easily absorbed*, but MCTs are not easily stored as body fat.

Antioxidants such as Silymarin (Milk Thistle extract) assist and protect the liver during detoxification*. Modified Citrus Pectin (PectaSol®) helps to eliminate heavy metals from the body via urinary excretion*.

ProtoClear™ & Detoxification

Overloading the liver and kidneys with toxins can result in many health problems. In many cases, the dysfunction begins as poor digestion, inflammation, allergic reactions, blood sugar imbalances, weight gain, headaches, fatigue, hormonal imbalances, or PMS. When the underlying toxicity is not eliminated, these common conditions have the potential to manifest as chronic conditions. ProtoClear™ is an easy alternative for the support of detoxification. It contains beneficial detoxification nutrients, as well as all the basic nutrients needed daily to support optimal health as a primary dietary supplement during an elimination diet*.

The ProtoClear™ supplement is uniquely designed to provide these important benefits:

- Aids in heavy metal detoxification* with PectaSol® Modified Citrus Pectin
- Uses co-enzyme B vitamins for better utilization, including extra B₁₂ as methylcobalamin
- Equal ratio of calcium:magnesium chelated as citrates
- Supplies more Albion® mineral chelates as glycinate; including boron, copper, molybdenum and manganese at safe levels
- The only leading detoxification supplement containing pure Japanese technology naturally fermented trans CoQ10 for energy
- Contains ProtoSorb™C, a patent-pending vitamin C formulation providing calcium ascorbate with the metabolite threonic acid plus alpha lipoic acid for optimal absorption and utilization
- Provides natural-form amino acids for balanced immune and detoxification support: reduced Glutathione, L-Lysine, NAC, Glycine and Taurine*
- Supplies other nutrients useful for energy, immunity and detoxification such as TMG (betaine), MSM, Choline, EGCG from green tea, Silymarin extract from milk thistle and alpha-lipoic acid*
- MCT Oil provides quick caloric value without promoting storage as fat
- Organic stabilized Golden Flax Seed Meal provides valuable fiber, lignans, and essential Omega-3 fatty acids
- Contains All natural vitamin E
- More vitamin D3 than other leading brands
- Rice protein base is non-GMO, instant and non-reactive for most people
- Free of common allergens
- All combined in the best tasting medical detoxification formula*. ProtoClear™ is a unique breakthrough combination that truly tastes great!

NEW! ProtoClear™

Available in Natural Berry and Orange Flavor

Why ProtoClear™

ProtoClear™ is a unique formula manufactured in a state-of-the-art, GMP-certified facility by Protocol For Life Balance™, a provider of physician grade quality dietary supplements. Unlike many companies that do not have the resources to manufacture their own products, our company has been manufacturing dietary products for over 40 years and employs some of the most stringent Quality Control/Quality Assurance standards in the natural products industry.

ProtoClear™ contains only the highest quality ingredients. Each one has been specifically included based on studies that have demonstrated its role in detoxification and nutritional support*. Each ingredient undergoes extensive testing and lot-specific acceptance before testing and use in our products.

ProtoClear™ mixes well, tastes great and is not grainy or chalky. It is very easy to use both at home and away.

ProtoClear™ is a non-genetically engineered (non-GE, non-GMO) brown rice protein isolate with added vitamins, minerals, antioxidants, amino acids, botanicals, organic golden flax meal, modified citrus pectin (PectaSol®), and enzyme-enhanced natural Stevia extract. Non-GE brown rice protein was chosen as the base of this formulation because it is unusual for people to be sensitive to rice protein.

ProtoClear™ is free of soy protein, wheat, gluten, casein, dairy, corn protein, refined sugar, tree nuts, peanuts, and caffeine and is produced in a peanut-free processing facility using GMP standards of sanitation to avoid cross contamination.

What to Expect with ProtoClear™

The ProtoClear™ formula is a pleasant-tasting powdered drink mix that can easily be added into water, juice, or other preferred liquid. The ingredients in the ProtoClear™ mix have been carefully selected based on their ability to support the body during cleansing and detoxification*. It contains a perfectly balanced mix of protein, carbohydrates, electrolytes, vitamins, minerals, antioxidants, amino acids, and herbal extracts. Working together within the body, this unique formulation can help eliminate toxins, protect and nourish cells, and provide the constituents needed for optimal health*. ProtoClear™ was developed not only to detoxify the cells, but also to serve as a nutritional complement to the dietary and exercise portions of the program*.

NEW! Liquid Cal Mag Citrate Lemon Flavor

Calcium is an important mineral best known for its role in the formation of bone and teeth.* Magnesium is another key mineral that plays a complementary role in bone formation.* In addition, Boron and Vitamin D have been included in this product because they play an essential role in bone metabolism.* Calcium also serves as an integral cofactor in numerous biochemical reactions* and Magnesium is known to be involved in more than 300 metabolic reactions.* In addition, Magnesium and Calcium work together in several physiological systems, providing support for the maintenance of healthy cardiovascular function as well as for healthy muscle function.*

- Supports Bone Health*
- Superior Citrate Forms
- With Boron and Vitamin D

GREAT TASTE!!
