

ACHIEVE HEALTHY BODY COMPOSITION!*

In conjunction with a sensible diet and regular exercise, dietary supplements can be a great way for your patients to better manage their weight and maintain a healthy body composition.* Protocol For Life Balance® offers several targeted formulations that work with the body to naturally support normal metabolism, adrenal function, thermogenesis, healthy distribution of fat in the body, and more.*

Our weight management formulas are manufactured with well-researched nutrients and botanicals, including green tea extract, MCT Oil, 7-Keto-DHEA, Chromium Chelavite®, and guarana, and are designed to provide your patients with the raw materials the body needs to naturally support healthy weight management and normal body composition.*

Ask your sales representative about adding these exciting products to your practice!

Energy – CLA AWAY™

CLA Away™ combines conjugated linoleic acid with other energy-supporting ingredients including guarana and green tea. In addition, green tea is a natural source of bioactive compounds, such as polyphenols and catechins, which help defend against oxidative stress resulting from overexertion.*

Metabolic Support – MCT OIL

Medium-chain triglycerides (MCTs) are fats that are easily absorbed and utilized by the body, encouraging the utilization of fat for energy instead of storage. Studies have demonstrated that consumption of MCT oil, along with a healthy diet, can help to maintain a healthy body weight.*

Thermogenesis – 7•KETO® LEANGELS™

7•Keto-DHEA is a natural metabolite of dehydroepiandrosterone (DHEA) that's been clinically shown to support healthy fat distribution and assist in the maintenance of a healthy weight when used alongside a healthy diet and exercise regimen.* This formula also includes green tea extract, acetyl-L-carnitine, and rhodiola extract to support cellular fat transport.*

Adrenal Support – METABOENERGETICS™

MetaboEnergetics™ combines several ingredients that endow the body with natural energizers.* Formulated with ingredients such as B vitamins, green tea, panax ginseng, and rhodiola, MetaboEnergetics™ naturally supports thermogenesis, energy production, and adrenal function.*
