

February is heart health month: try Clinical Cardio-6 to support cardiovascular health*

Clinical Cardio-6 is a powerful combination of targeted nutrients and botanicals that are known to promote optimal cardiovascular health by supporting:*

Energy production*

- L-Carnitine (clinically evaluated Carnipure®)
Supports energy production in the heart by facilitating the transport of fatty acids into mitochondria*
- Coenzyme Q₁₀
Participates in ATP production*
Is found in high concentration in heart muscle*

Healthy blood pressure already within the normal range*

- Hawthorn Extract (standardized to 1.8% vitexin-2"-O-rhamnoside)
Supports the normal regulation of coronary blood flow and enhances oxygen flow and utilization by the heart*
Promotes normal heart contractibility and blood vessel dilation*
- Grape Seed Extract (clinically evaluated MegaNatural®-BP™, standardized to minimum 90% polyphenols)
Is a powerful free radical scavenger*
Contributes to endothelial relaxation*

Healthy calcium metabolism & normal arterial flexibility*

- Vitamin D₃
Supports healthy calcium metabolism, a micronutrient important for cardiovascular health*
- Vitamin K₂ (MenaQ7®)
Helps maintain arterial flexibility by supporting healthy arterial wall mineralization*
Works synergistically with vitamin D₃*

At Protocol For Life Balance®, we believe in innovation, and we have been working hard to craft a cardiovascular supporting formula that has its place in every dispensary.* We carefully selected six "tried and true" ingredients and combined them in one vegan supplement that provides a simple answer to the cardiovascular supporting needs of your patients.* This formula fits perfectly with our ethos to provide clean, affordable, clinically evaluated products that you can reliably recommend to your patients.
