

The holidays are coming - our Stevia Liquid Extract is perfect for those indulgent meals!

Now is the perfect time to recommend our Stevia Liquid Extract to your patients who may want to enjoy some of the great seasonal foods while being mindful of their sugar intake.

Bioactive compounds

Extracted from organically grown whole leaf stevia plant

High purity enzyme modified steviol glycosides to reduce the licorice-like and metallic aftertastes common in stevia extracts

Non-Caloric & Low Glycemic Impact

Long-term clinical studies have shown that steviol glycosides do not affect blood glucose levels and have no adverse effects in healthy individuals

Safe Sweetener

Generally Recognized As Safe (GRAS) by FDA

Steviol glycosides are safe to use during pregnancy

No known allergenicity

Protocol For Life Balance® Stevia Liquid Extract is sourced from organic sustainable farming and is obtained using a sustainable enzymatic extraction process that virtually eliminates the bitter/licorice aftertaste typical to generic stevia extracts. Our stevia has no masking agents, no artificial flavors, no added colors. As a practitioner you can confidently recommend our Stevia Liquid Extract to your patients who are mindful about their sugar intake and are seeking a deliciously sweet safe alternative.
