

Ache Action™ is back in stock! Don't forget to include it in your next order!

Protocol For Life Balance® Ache Action™ is a **unique** botanical blend for occasional minor aches & pains of overexertion.*

Bioactive compounds

Willow bark extract standardized to 14% salicin.

Ginger extract standardized to a minimum of 5% gingerols.

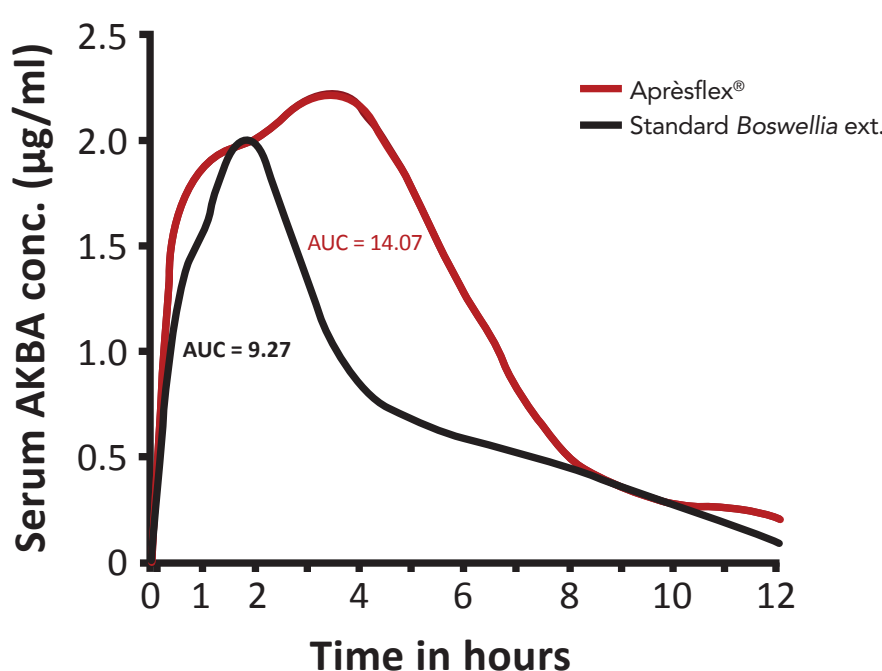

AprèsFlex® - ***Boswellia serrata*** Extract standardized to 10 mg AKBA[†]

Bioavailable Compound

AprèsFlex® is obtained using a unique extraction method of *Boswellia* that results in increased bioavailability of AKBA.

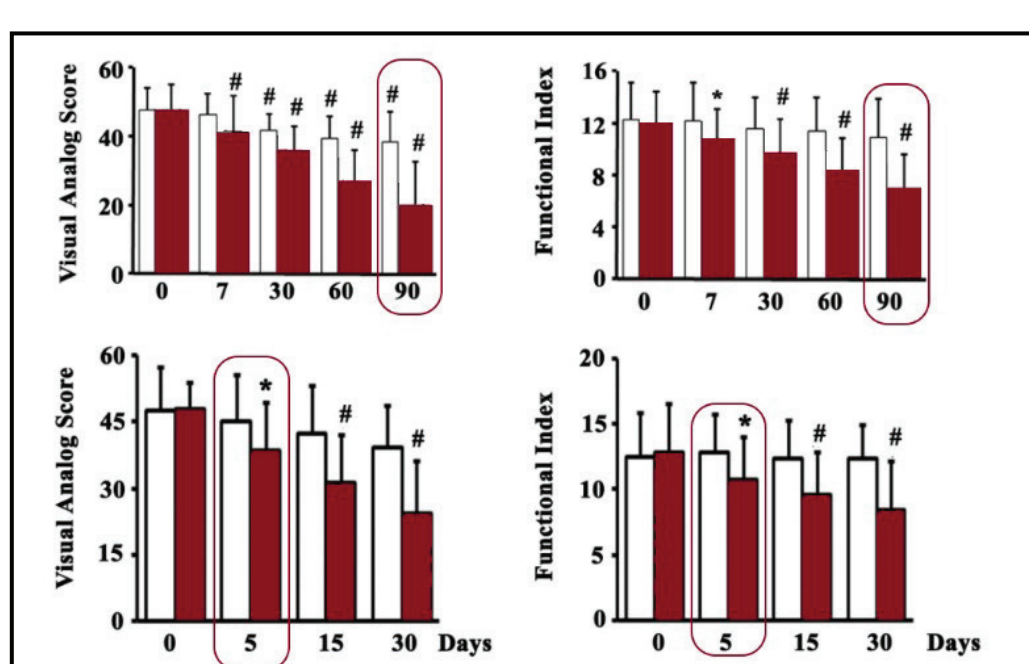

AKBA overall bioavailability is **50% higher** than AKBA from a generic *Boswellia* extract.¹

Comparative bioavailability of AKBA in a standard *Boswellia* extract and AprèsFlex® supplemented lab animals. Line diagram represents mean AKBA concentration (mcg/ml) in serum samples of tested animals. The area under the curve (AUC), was 50% higher than AKBA from a standard *Boswellia* extract.

Joint Support: Pain & Function^{2-4*}

AprèsFlex® has been evaluated in well-designed double-blind, randomized, placebo-controlled clinical trials. In these studies, 50 mg AprèsFlex® used twice daily resulted in a significant reduction of pain due to overexertion vs. placebo and promoted normal joint function as early as **5 days** after the beginning of supplementation as evaluated on a visual analog scale for pain and a functional index questionnaire.* It remained statistically significant for pain and joint function up to 90 days.*

At Protocol For Life Balance®, we believe that offering the best possible ingredients gives practitioners the ability to recommend products that are both innovative and effective. Ache Action™ features AprèsFlex®, a unique clinically validated bioavailable standardized extract of *Boswellia serrata* combined with standardized extracts of willow bark and ginger. Willow bark and ginger are known to support a healthy immune response to normal biological stress.* When combined, these ingredients are meant to help people move freely without aches & pains due to overexertion.* Ache Action™ is a safe and effective botanical blend designed to alleviate such inconvenience in a timely manner so your patients can get right back on track with their daily life.*
