

Feeling calm, cool, and collected*

Introducing our latest product: Sceletium Extract as Zembrin®

Bioactive Compounds

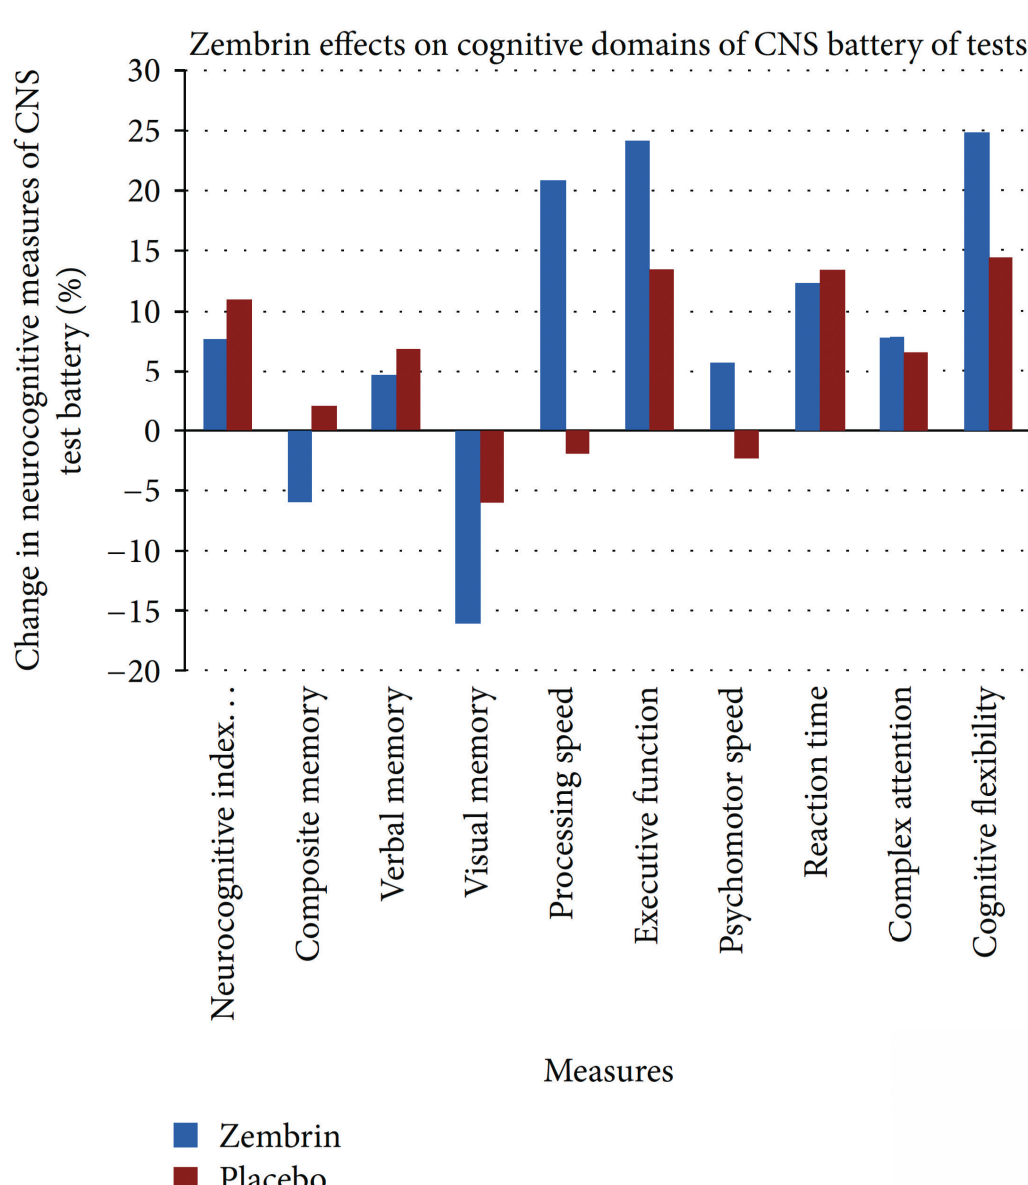

25 mg Zembrin®:

- Standardized extract of a succulent plant native to the South African region: *Sceletium tortuosum* (L.) N.E. Br. [Mesembryanthemaceae (Aizoaceae) plant family]
- 2:1 extract ratio, standardized to a 0.35% - 0.45% total alkaloid content including 60% Mesembrenone + Mesembrenol; 20% Mesembrine; and 5% Mesembranol contributing to total alkaloids

300 mg GABA

Clinically Validated to Support Healthy Cognitive Function^{*1}

Cognitive effects of Zembrin® extract in healthy subjects: Zembrin-treated subjects and placebo-treated subjects were administered CNS Vital SignR battery of neuropsychological tests at baseline and at the end of the 3-week treatment period. Cognitive domains were derived from CNS Vital SignR tests. Zembrin® significantly improved cognitive flexibility ($P < 0.022$) and executive function ($P < 0.032$) compared with placebo.^{1*}

At Protocol For Life Balance®, we believe that offering the best possible ingredients gives practitioners the ability to recommend products that are both innovative and effective. Zembrin® is a unique standardized extract that has been clinically evaluated for its ability to support emotional balance, as well as its non-drowsy calming effect.* Furthermore, it supports healthy cognitive function in healthy middle-aged individuals.^{1*} We combined Zembrin® with GABA for its complementary effects. Protocol For Life Balance® Sceletium Extract is therefore the ideal supplement for your patients in need of a simple brain supporting formula that will help them feel calm, cool, and collected without drowsiness.*
